Project Summary

The DEBATE project aims to promote the development of the skills and competences that young university students need to improve their critical thinking and employability through the creation of collective learning environments. In this sense, debate is proposed as a methodology that fosters the ability to exercise critical judgement.

Other objectives are to improve the quality and efficiency of education and training, promote active citizenship and enhance creativity.

Debate is an important learning method in university education. It helps students improve their analytical thinking, research skills, and critical thinking abilities. By understanding opposing views, they learn t
